

## 9159 Bluetooth Scale Quick Start Guide

### Step 1

Ensure that Bluetooth is enabled on your mobile device and then step on the centre of the scale platform to turn your scale on

### Step 2

Please choose a user number for your measurements

### Step 3

Press and hold the unit button on the rear the of scale until the animation appears

### Step 4

Place your scale on a firm flat surface and press the centre of the platform with your foot to turn it on

### Step 5

Press the  button and use the   buttons to select your user number

### Step 6

Wait whilst the scale confirms your personal data and then shows a zero reading

### Step 7

When zero is displayed, with bare feet, step onto the platform and stand still

Your scale will then weigh you and measure a range of other values using BIA analysis

### Step 8

If your scale is on and your app is open then your data will be synced automatically

If your scale is unable to connect, then your data will be saved to your scale until a connection is available

### Step 9

You can sync your saved data at any time by opening the app, pressing on the centre of the platform to turn your scale on and then selecting your user number
